

What's That

Madness

No pain no fame never feel the same again
That's right uptight I've been awake all night
Cold sweat in bed crazy thoughts fill my head
Next thing morning breaks hide my hands control the shakes
Out now dirty street music in my mind that's sweet
Sad man sad girl young child make world
Feel love don't shove give thanks to God above
No fear never hear kiss and tell my mother dear
It's all clear?

I know who you are I know who I am I know what you want
I know who you are I know who I am I know what you want

What's that a fact bad debt break back
Small room big time rich man over the moon
In space wrong place hungry people in food chase
Crying there dying there pretty baby washing hair
It's all clear?

I know who you are I know who I am I know what you want
I know who you are I know who I am I know what you want

Here comes the catch again they've stabbed you in the back my friend

No news it's true every way I play with you
In front behind slow down take time
Every why I should lie hole's appearing in the sky
Come on out in the sun don't be frightened of a gun
It's all clear?

I know who you are I know who I am I know what you want
I know who you are I know who I am I know what you want
I know who you are I know who I am I know what you want
I know who you are I know who I am I know what you want
(I'm your man a funny man)
