

Dark Clouds

Mads Langer

When it comes it comes on fast
It steals my breath away
I see you standing in the door
I don't know what to say

Dark clouds do your worst
Dark clouds, rain down on me

Don't mind if it catches up
You've taught me how to fight
Never knew how to be tough
Till you let in the light

Blindfolded, kicked out the car
For a second, don't know where you are
Then I hear your voice cut through
The panic and come back to you

It's always there
But now I don't care
You're always there

Dark clouds do your worst
Dark clouds, even if it hurts
Dark clouds, rain down on me

Down on me...

Dark clouds do your worst
Dark clouds, rain down on me

It's always there
But now I don't care
You're always there

Dark clouds do your worst
Dark clouds, even if it hurts
Dark clouds, rain down on me
