Daylight

Mads Langer

There is so much more to this, meets the eye
Kiss me now, or kiss me for tomorrow we may die
We hidding in the shadows, we always on the run

Yesterday is gone, yesterday is gone

I will leave, I wouldn't mind behind tonight
I wanna do the things we do

In the dark daylight

Guilt but the reason of love in first agree
Lock the door and throw away the key
Surprise for every promise you can't keep
I keep my watch for eye so you and syou can sleep

I will leave, I wouldn't mind behind tonight
I wanna do the things we do

In the dark daylight

Whooa.
Whooa.

Daylight

Whooa.
Whooa.
