

Double Trouble

Mads Langer

Drunk and paralyzed
Is what you're doing to me
You got me mesmerized
Body's raging like crazy
Will someone save me?
But things we cannot say
Are lost between the white lines
Don't you turn away
I wanna look danger in the eyes
Will someone save me?

You and me
We're double trouble rolling in the sheets
We're double trouble, I can barely breathe
And when I taste those lips, it feels like fire
Like fire
You and me
We're double trouble rolling in the sheets
We're double trouble, I can barely breathe
And when I taste those lips, it feels like fire
Like fire

I'm so terrified
Of where this love is gonna lead
The way that we collide
It's like fireworks explode in me
Oh, will someone save me? Yeah

You and me
We're double trouble rolling in the sheets
We're double trouble, I can barely breathe
And when I taste those lips, it feels like fire
Like fire
You and me
We're double trouble rolling in the sheets
We're double trouble, I can barely breathe
And when I taste those lips, it feels like fire
Like fire

Maybe we come undone
Maybe we're just burning like the rising sun
I'm the bullet, you're the gun
Baby, we're not safe for anyone

You and me
We're double trouble rolling in the sheets
We're double trouble, I can barely breathe
And when I taste those lips, it feels like fire
Like fire
You and me
We're double trouble rolling in the sheets
We're double trouble, I can barely breathe
And when I taste those lips, it feels like fire
Like fire
