

# Number One

Mads Langer

Floating through the night and as the  
Sun goes up we keep on dancing  
We are high, high above the ground  
Soaking wet, we're in the water  
And we're diving further down  
Beyond the ground is where we fly

The number one  
Ooh-oooh, ooh-oooh  
We're gonna try strong  
The number one  
Ooh-oooh, ooh-oooh  
We're gonna carry on

Lights are flickering around us  
And we're moving faster to  
The heat of sound  
We're high above the ground

The number one  
Ooh-oooh, ooh-oooh  
We're gonna try strong  
The number one  
Ooh-oooh, ooh-oooh  
We're gonna carry on

Afloat in the symmetry  
There's no place we'd rather be  
We'll stay, stay till we're gone  
We don't need technology  
There's no place we'd rather be  
We stay, stay till we're gone  
The number one  
We're far from gone  
(The number one)  
(The number one)  
(The number one)

The number one  
Ooh-oooh, ooh-oooh  
We're gonna die strong  
The number one  
Ooh-oooh, ooh-oooh  
We're gonna carry on  
(We're gonna carry on)

The number one  
Ooh-oooh, ooh-oooh  
We're gonna die strong  
The number one  
Ooh-oooh, ooh-oooh  
We're gonna carry on
