

Superhero

Mads Langer

Summertime I feel the nightmare clearing my mind
Moonlight shining through your hair and you say your mine
A year ago you'd see me walking down the street on my own, on my own, yeah

Now I am walking with you next to me
There's really no other place I'd rather be
Here comes the voice in my head and I can't let it go, oh no

What if I say I am scared of being me
What if my heart beats a broken melody
I don't know how but somehow you see
The superhero in me
The superhero in me
The superhero in me
The superhero in me, in me, in me

Travel half the world on broken wings somehow we fly
Hold my breath as we keep falling off each to this sky
I look at you and I remember it's a wonderful life
What a ride, yeah

Now I am walking with you next to me
There's really no other place I'd rather be
Here comes the voice in my head
And I can't let it go, no no

What if I say I am scared of being me
What if my heart beats a broken melody
I don't know how but somehow you see
The superhero in me
The superhero in me
The superhero in me
The superhero in me, in me, in me

Now I am walking with you next to me
There's really no other place I'd rather be
Here comes the voice in my head
And I can't let it go, no no

What if I say I am scared of being me
What if my heart beats a broken melody
I don't know how but somehow you see
The superhero in me
