

Better Days

Mae Muller

I've been feelin' lonely
I need someone to hold me
Come on, baby, hold me
Yeah, I've been feelin' jaded
Don't know how I should play it
Tell me how to play it
Now you, you've been movin' on
Let me know, can I come along?
Since you're gone, oh, its been so long
On my own, my own, my own, my own

Livin' in a haze, stayin' in the shade
All I do is sit around and wait for better days
I could use a break, can I get an "Amen"?
All I do is sit around and wait for better days

Uh, uh
Can I get an "Amen"? Introverted, can't make friends
Pray for better days, now it's three hundred K when my day ends
Do you remember last night? 'Cause I blacked out
In that all white dress with her back out
Said, "Be careful with her heart 'cause it's fragile"
And thinkin' 'bout her past make her lash out
See, with me, it ain't no worries at all
Any problem, I'll be there, one call
If we locked in, you my dawg
Fan of you, I hang pictures on my wall
Roll one, let's get high tonight
Backseat, Maybach, lavish life
Chillin' with the stars like a satellite
AP on my arm and it's shinin' bright, uh

Livin' in a haze (Haze), stayin' in the shade (The shade)
All I do is sit around and wait for better days (Sit around and wait)
I could use a break, can I get an "Amen"? (Amen)
All I do is sit around and wait for better days

Sit around, sit around, sit around and wait
For better, better, better days, oh
I could use a break, oh
Better, better, better, better
For better days, oh-oh
All I do is sit around and wait for better days
Better days
All I do is sit around and wait for better days
