

# I Did It

Mae Muller

I did it, I did it  
I did it, I did it  
I did it, I did it (uh)  
I did it, I did it (yeah)  
I did it, I did it (uh)

I never expected it  
Mum wants a new kitchen, I can credit it  
Came from a shared kitchen, room had one bed it  
Country in war, one chance, she jetted it  
When she looks back now way shes regretting it  
Left everything for her son to be getting it  
Always had dreams about buying her council house  
One day to start letting it  
Then I said yo I can do way more  
In England, they would call us poor  
But in Africa we was rich, that's what they thought  
Know I'm gonna win and I didn't come up off a draw  
I was lucky in life 'cause I picked the right straw  
If you watch Dave you're gonna see my face of course  
Also I was with Dave on tour  
Had foresight doubled the vision and eight more

I did it, I did it  
When I was feeling down and out  
I did it, I did it  
But then my times are over now  
I did it, I did it  
I told my mum I'll make her proud  
I did it, I did it  
I did it, I did it

It's funny how  
All you man are moving young  
My ex done hit me up and no luck  
I don't wanna sort it out, like  
What's that about  
Now I got a little cash and clout  
Uh, they wanna show me love and catch up  
You could drop me out  
Back then I was just up on the daily  
Stations really do wanna play me  
But now I sing my song  
And them lot have to pay me  
I love it, I love it  
Then I can say I done it  
Not when I'm feeling down and out, I'm sorry

I did it, I did it  
When I was feeling down and out  
I did it, I did it  
But then my times are over now  
I did it, I did it  
I told my mum I'll make her proud  
I did it, I did it  
I did it, I did it

I did it, I did it  
When I was feeling down and out  
I did it, I did it  
But then my times are over now  
I did it, I did it  
I told my mum I'll make her proud  
I did it, I did it (uh, yo)  
I did it, I did it (uh)

If you wanna do something different, they say you can't do it  
Use their energy to charge you up so you pursue it  
Kill it, you can get to the top if you slew it  
And one day they'll be like, "Yo man, I knew it", uh  
It's funny how the tables turn  
Your bad vibes fuel the fire make it burn  
For every screw face you felt that's stern  
Do a big fat smile and it'll make 'em gurn, uh  
'Cause you could never stop my good vibes, the hood lies  
Fam you're more scared of a road man than the roadman  
When you cross do you look twice?  
Don't let 'em hold you down cause what you look like  
The media's gassing their brains, we seen 'em cook minds  
Realize that were all the same in the inside  
I ain't left change 'cause we got a lot to put right  
Be who I am, see, I did it, it took time

I did it, I did it  
When I was feeling down and out  
I did it, I did it  
But then my times are over now  
I did it, I did it  
I told my mum I'll make her proud  
I did it, I did it  
I did it, I did it

I did it, I did it  
When I was feeling down and out  
I did it, I did it  
But then my times are over now  
I did it, I did it  
I told my mum I'll make her proud  
I did it, I did it  
I did it, I did it

And I was feeling down and out  
But then my times are over now  
I told mama I'll make her proud
