

# Jungle

Mae Stephens

I'm out feeling lonely again  
Am I too scared, scared of letting you in?  
Keep on hoping that you'll stay till the end  
Even when I hide

Maybe something's holding me back  
Oh, maybe I just like it like that  
Keep on hoping one day you'll understand  
When I'm not making sense

I got a jungle in my heart  
When it gets wild, when it gets dark  
Yeah, only you know where to go  
But if you're lost then let me know  
I got a jungle in my heart  
I wish I knew you from the start  
It never feels like you're that far  
From the jungle in my heart

In my heart

I don't ever stop believing in us  
Try my best to hold onto what we got  
When it's slipping, oh, I hope it's enough

Maybe something's holding me back  
Oh, maybe I just like it like that  
Keep on hoping one day you'll understand  
When I'm not making sense

I got a jungle in my heart  
I wish I knew you from the start  
It never feels like you're that far  
From the jungle in my heart

I got a jungle in my heart  
I got a jungle in my heart  
I got a jungle in my heart  
I got a jungle in my heart

I got a jungle in my heart  
When it gets wild, when it gets dark  
Yeah, only you know where to go  
But if you're lost then let me know  
I got a jungle in my heart  
I wish I knew you from the start  
It never feels like you're that far  
From the jungle in my heart
