

5 Light Years

MAE

It was better to start with something
Together we play
But then we left of with something, the right way

Yeah!

And then the sunsets lost it wonder
Together, we played
With broken hearts and nights thunder, but no rain
The wrong pain, yeah
True wasted love sustained in doubt
Pretend we turn the key

I'm 5 Light Years, from before coming there (Yeah-eh)
See all games have come with a price
Where it takes us God and the dealer wise
It, makes love fools of us

But no shame you are the wrong game (Yeah)
True tastes of Love, but laced with doubt
So, ele-mentary

I'm 5 Light Years from before coming there (Yeah)
Goodbye my love if I don't see you again
I'm 5 Light Years from before calling my name (Yeah-eh)

Where it takes us God and the dealer wise
It makes love fools of us

All space becomes free-ways for hearts
And all we played was war
Yeah it became along, the wrong way, yes it was the long way
If grace and love sustained throughout
We tend to hold those... keeps

Goodbye my love if I don't see you again
I'm 5 Light Years from before calling my name (Yeah-eh)
Goodbye my love if I don't see you again
(Goodbye my love if I don't see you again)
I'm 5 Light Years from before calling my name (Yeah-eh)

Oh Whoa Oh
