MAE

I know we both needed change
I thought I had it made
In the worst way

We made our share of mistakes
Like a hurricane
Oh, breaking me
On display for the world to see, yeah

But would you believe I'm on top?
You were the best I didn't know I didn't have
And now that I'm here on top
Oh, this chance and moment are all I have

I'd say I'm the luckiest one you know
So, why'd you even go
In the first place?

I'd give whatever it takes
Like a hurricane
Oh, taking me on parade for the world to see, yeah

But would you believe I'm on top?
You were the best I didn't know I didn't have
And now that I'm here on top
Oh, this chance and moment are all I have

On top, on top

When the fear of heights sets in this time
Looking down like I can
So fly

Hurricane
Oh, taking me
On display for the world to see, yeah

But would you believe I'm on top?
You were the best I didn't know I didn't have
See I can only give it to you
When you were on top
Oh, this chance and moment are all I have

On top (4x)
