Somewhere

MAE

From across the room I feel your gazing eyes.
And to say I'll get enough of you, still only trivialize.
You're the only thing I long for tonight.
And what more could I wish for?

There's longing in your sigh.
There's only one reply.
No consolation prize will work for me tonight.

Can we go somewhere?
Somewhere
I don't even really care.
Somewhere

We dance upon the street we call pretend.
But I can't shake the feeling,
I don't want this to end.
I can read you like the map that takes you anywhere.
So pick the place and take me there.

A trip to the unknown
Still be with me alone.
And here is where we are.
The perfect place to start.

Can we go somewhere?
Somewhere
I don't even really care.
Somewhere
Somewhere
Anywhere
I don't even really care.
Somewhere

All I can see are the best parts of you and me.
All I can ask, "will you take me somewhere?"
Somewhere
Somewhere
Somewhere
Somewhere
Somewhere
Somewhere
With you
Somewhere
Somewhere
Somewhere
Somewhere
Somewhere
With you
Somewhere
Somewhere
I don't even really care.
Somewhere
Anywhere
I don't even really care.
Somewhere
