

# Ghost

Magdalena Bay

Evil eye  
Crawling up my spine  
Walk into my mind  
All my life  
Waiting on a sign  
I can barely find  
I can barely find

Got me feeling like I'm crossing over  
A second presence in the corner of my eye  
And any time you need me closer  
I'm already inside

You've got a way of turning on  
My appetite  
You've gotta satisfy  
What's burning inside

Got me feeling like I'm crossing over  
A second presence in the corner of my eye  
And any time you need me closer  
I'm already inside

Every inch of you I'm taking  
Hold you close until you're breaking  
Turn the light off and I'll stay

Evil eye  
Crawling up my spine  
Walk into my mind  
All my life  
I'm waiting on a sign  
I can barely find  
I can barely find

Got me feeling like I'm crossing over  
A second presence in the corner of my eye  
And any time you need me closer  
I'm already inside

Got me feeling like I'm crossing over  
A second presence in the corner of my eye  
And any time you need me closer  
I'm already inside
