

Give It Up

Magdalena Tul

Since i was a child
Serching for inspiration
I belived i could
Shape the fade by affirmation
Till the adulthood
Made my life so jumpy
Dreams so far away
And the road so bumpy

Lost in the crowd
Looking for a helping hand
I hear the voice in my brain

Stop and give it up, give it up
Feel this passion, live it up
Cause you still have a chance now
Don't give up, don't give up
Stoked the fire, never stop
It is high time to get down

When yor're down and out
And afraid of tomorrow
Be one up on your fears
Don't wallow in the sorrow

People are all the same
Waiting for brand new day
There're fighting with ghosts of night
Until new challange comes
