

# If Only You Played Football As Well As You Play Girls

Maggie Antone

Nobody cares about your souped-up pickup truck  
To be frank, nobody gives a you-know-what  
All you meant didn't mean horseshit  
Who cares about the freshman that you're sleeping with?

If only you played football as well as you play girls  
You may not be on the bench thinkin' you're the only one in this world  
Life's not all about the Friday night lights  
And the boys on Saturday night

Nobody cares about your small-town pedigree  
Or that you're captain of the football team  
You and word sure get around  
Who you callin' whore now?

If only you played football as well as you play girls  
You may not be on the bench thinkin' you're the only one in this world  
Life's not all about the Friday night lights  
And the boys on Saturday night

I hope you eat shit and die  
I hope your single-wide mortgage takes a lifetime  
If only you played football as well as you play girls  
You may not be on the bench thinkin' you're the only one in this world

If only you played football as well as you play girls  
You may not be on the bench thinkin' you're the only one in this world  
Life's not all about the Friday night lights  
And the boys on Saturday night

You should get a life
