

# Things

Maggie Lindemann

You wake me with kisses  
You make my hair a mess  
I'm not wearing makeup  
You say I look my best  
You got that realness  
You're so beautiful

Never wanna leave this bed  
Gotta get it off my chest

It's the little things you do that make me want you  
And the not so little things that make me need you  
Just one look and I'm dropping jaws  
Just one touch and I'm slammin' doors  
'cause it's the little things you do that make me love you

Little things  
Little things  
Little things, and the not so little things

You're no beginner  
I like my men that way  
You make me feel safer with every word you say  
You give me the whole world  
I opened up to you

Never wanna leave this bed  
Gotta get it off my chest

It's the little things you do that make me want you  
And the not so little things that make me need you  
Just one look and I'm dropping jaws  
Just one touch and I'm slammin' doors  
'cause it's the little things you do that make me love you

Keep on doin' what you're doing  
Please don't ever stop  
I'll keep doin' what I'm doin'  
Put my love on top

It's the little things you do that make me want you  
And the not so little things that make me need you  
Just one look and I'm dropping jaws  
Just one touch and I'm slammin' doors  
'cause it's the little things you do that make me love you

Little things  
Little things  
Little things, and the not so little things
