

who are you when you're alone?

Maggie Lindemann

Looking through our texts
Is it just me or are you feeling down?
In my head again
And I just need you to come break me out

Hold me close
When I'm feeling low

Who are you when you're alone?
Where do you go?

Who are you when you're alone?
Where do you go when you're alone

Would you just ease my mind
I can't stop the mess I'm making now
Time and time again
But I can't seem to just shut it down

Hold me close
When I'm feeling low

Who are you when you're alone?
Where do you go?

Who are you when you're alone?
Where do you go when you're alone?

Thoughts manipulating, looking for a way to shut them off
And I'm wearing myself out, trying to hide in camouflage

Thoughts manipulating, looking for a way to shut them off
And I'm wearing myself out, trying to hide in camouflage
