

Honey

Maggie Rogers

Oh I believe
In the way I loved you then
And the way you held my hand
It wasn't circumstance
Or anomaly
But power's about when
You place your bets and
Choose your friends

Oh I believe
I could have been your girl
For about a hundred years
Oh in another world
But I had to leave
And now when you hear my name
Oh does it
Break your shit
Or do you
Runaway

I started out trying to do what's right
Lost it all in the middle of the night
If you're wondering what you should do with your life
Honey if I knew I would tell you wouldn't I

Oh I believe
We've all been here before
That times a memory
And its an open door
But tell me what happens
When you're on the other side
Is there a party somewhere
Or is it a
Fucking riot

I started out trying to do what's right
Lost it all in the middle of the night
If you're wondering what you should do with your life
Honey if I knew I would tell you wouldn't I

(Honey, honey, honey, honey, honey, honey, honey, honey)
(Honey, honey, honey, honey, honey, honey, honey, honey)
If there's an answer oh tell me
(Honey, honey, honey, honey, honey, honey, honey, honey)
Is there an answer
Honey

I started out trying to do what's right
Lost it all in the middle of the night
If you're wondering what you should do with your life
Honey if I knew I would tell you wouldn't I

I started out trying to do what's right
Lost it all in the middle of the night
If you're wondering what you should do with your life
Honey if I knew I would tell you wouldn't I
