

# Symphony

Maggie Rogers

Hold on baby  
Don't break maybe  
We could spend the night or an hour watching your favorite show  
Take my hand now  
Don't speak so loud  
Try your best to forget the world outside your window

And be here with me  
There's no where else I'd rather be  
And there's a symphony  
Going on inside my head  
I know it's time to rest  
Can you live like nothings left  
Forget your emptiness  
Take a breath

I'll tell your friends  
Come over when  
They can find the time to walk the mile down the road  
We can start a band that only plays living room shows

And you'll be there with me  
There's no where else I'd rather be  
There's a symphony  
Going on inside my head  
I know there's emptiness  
Making its way through your chest  
But can you bury it  
Take a breath

I know there's times when I can be a lot to handle and  
I'm working with a therapist to take care of it  
Keep coming back to me when I keep pushing you away  
It's not something I mean to do it just comes off that way  
Don't want to think about a world where there's not your face  
Can't erase there's nothing I wouldn't do for you  
For you  
For you

So just be here with me  
There's no where else I'd rather be  
And there's a symphony  
Every time you look my way  
I know we're under slept  
And life's a promise that never ends  
But you can handle it  
Take a breath  
Take a breath
