

You make the time go slowly  
You chase the sad and lonely out  
It's scary how you know me  
You take the words out of my mouth  
Ooh, I'm safely in your cocoon  
I'm never leaving this room no never

Everyday is Sunday when I'm with you  
I don't mind taking the long way when I'm with you  
It's a laid back long drive everything's all right kinda mood  
Oh, when I'm with you  
When I'm with you

When the world comes knocking  
We can hide under the sheets  
Is it too much to ask  
To stay inside this fantasy  
Ooh, I'm safely in your cocoon  
Never leaving this room no never

Everyday is Sunday when I'm with you  
I don't mind taking the long way when I'm with you  
It's a laid back long drive everything's all right kinda mood  
Oh, when I'm with you  
When I'm with you

Ooh, I'm safely in your cocoon  
I'm never leaving this room no never

Everyday is Sunday when I'm with you  
I don't mind taking the long way when I'm with you  
It's a laid back long drive everything's all right kinda mood  
It's a drink wine get high play songs all night kinda groove  
Oh, when I'm with you  
When I'm with you
