

Just Getting By

Maggie Rose

Don't try and tell me
What you think I need
You won't make it better
And you can't fix it all for me
If everything were perfect would you be satisfied?
Can you paint a picture for me?
Show me what that looks like

Yeah, a white picket fence and a piece of "that sounds nice"
But baby that's not our life
And don't you forget that we got love and we got time
So even though it's messy
I got you if you get me
And baby we won't always be
Just getting by

(Woah-oh-woah-oh-woahhhh-oh)
(Woah-oh-woah-oh-woahhhh-oh)

I know that you're weary
'Cause baby I am too
And all the shit keeps coming like a hurricane blowing through
So go ahead and tell me it'll be okay
'Cause any day now baby our luck is gonna change

Yeah, a white picket fence and a piece of "that sounds nice"
But baby that's not our life
And don't you forget that we got love and we got time
So even though it's messy
I got you if you get me
And baby we won't always be
Just getting by
Just getting by
