

Pull You Through

Maggie Rose

When I'm feeling blue
And no light is shining through
Darling you, yeah, you pull me through
When I've been sinking low
Drowning in the undertow
Yeah it's true that darling you, yeah, you pull me through
Whoa...

So long loneliness
No nothing is wrong with a little tenderness
I need you, I need you, no, I'm afraid to confess
Yes it's true, it's only you

When I need a friend
Without even knowing you came

And you showed me a love without an end
Yeah it's true, uh, darling you, yeah, you pull me through
Whoa...

Oooooo oooooo oooo ooooooo oo
Wanna shower me with your river of love
I believe you make me wanna sing
Hallelujah, hallelujah, hallelujah

When we say goodnight
I'll be waiting on the other side for you
Mmmhmmm, like you always do
I'll pull you through
