

Relentless

Maggie Rose

When it's all blown up in your face
Clean up the mess put everything back in its place
Just rip it off like a band-aid
It ain't always gonna go your way
'Cause there's sharks in the water
And there's snakes in the grass
But I'm done crying over a half empty glass
Can't be living the future
If I'm stuck in the past
So I stay unphased

This life is gonna leave you breathless
But you'll catch it
Every time
So fight you gotta be relentless
'Cause the best things take their time

So you're not where you wanna be
Got lost too many times down the darkest streets
But soon the sun will rise and you will see
'Cause there's sharks in the water
And there's snakes in the grass
But you're done crying over an half empty glass
Can't be living the future
If you're stuck in the past
So just stay unphased

'Cause this life is gonna leave you breathless
But you'll catch it
Every time
So fight you gotta be relentless
'Cause the best things take their time

Oh
You gotta know
You gotta feel it

Oh
Just let it go
You gotta heal it
So you can deal with it

'Cause this life is gonna leave you breathless
But you'll catch it
Every time
So fight you gotta be relentless
'Cause the best things take their time
Oh, this life is gonna leave you breathless
But you'll catch it
Every time
So fight you gotta be relentless
'Cause the best things take their time
