

## Save Me

Maggie Rose

It took time, I wanted  
Nothing to do with you  
Til you came back and  
Smiled at me like you used to do  
There was hunger in your eyes  
And I was ready for a change  
You told me you wanted to give me your love  
I told you I wanted your everything

Save me, from the heartbreak, please  
If it's meant to be tonight, whoa oh oh  
Everybody needs, someone they can hold, darling  
Would you lead me to the light?

Time was running fast  
And I was holding on too slow  
When you came in that door, I  
I had a feeling where this would go  
You said, years ago you told me  
That I'd be everything  
And I'm not letting go but you've got to come home  
And you've got to include me in all your dreams

Save me, from the heartbreak, please  
If it's meant to be tonight, whoa oh oh  
Everybody needs, someone they can hold, darling  
Would you lead me to the light?

Save me, from the heartbreak, please  
If it's meant to be tonight, whoa oh oh  
Everybody needs, someone they can hold, darling  
Would you lead me to the light?  
Would you lead me to the light?
