

Smoulder

Magic Dirt

When I travel
I unravel
You come out suffocating
In the morning
I try and solve it
You come out suffocating
I can twist it
I can't resist it
You come out suffocating
On your shoulder
You can smoulder
You come out suffocating
You come out suffocating
Suffocating
You come out suffocating
Suffocating
Gonna twist it
Your head is blistered
You come out suffocating
The road's a menace
I need a head rest
You come out suffocating
The girls are screaming
A movie sceening
You come out suffocating
You are a phantom
That I've been counting
You come out suffocating
When I'm walking
I hear you talking
You come out suffocating
Everyhting's burning
Your eyes are turning
You come out suffocating
Just like a candle
All I can handle
You come out suffocating
Inside the coffin
You put The Lord in
You come out suffocating
You come out suffocating
Suffocating
You come out suffocating
