

# Dark Night, Dark Thoughts

Magic Kingdom

Can't close my eyes, insomnia takes control  
Their shadows are in my head  
What's gone is gone, the past can be nevermore  
Now it's time to face my demons  
Will I take my own life to reach the peaceful side ?  
But I can't sign the book of life with my own blood

Feels like I'm stranger in my land  
I don't belong to this cursed world  
And when the sun goes down, my soul  
Will fly away, dark night, dark thoughts  
The battle is already lost  
Nothing will change this fatal fate  
Farewell my friends, embrace the doom  
My heart is black, dark night, dark thoughts

Life never gives you what you're wishing for  
The hopeless fight is endless  
The evil spirit lives forevermore,  
His mind games can't be undone  
The devil pulls the strings  
And tricks the weaker ones  
He'll soon write (down) a new name  
In the book of the dead

Feels like I'm stranger in my land  
I don't belong to this cursed world  
And when the sun goes down, my soul  
Will fly away, dark night, dark thoughts  
The battle is already lost  
Nothing will change this fatal fate  
Farewell my friends, embrace the doom  
My heart is black, dark night, dark thoughts
