

## Dragon Princess

Magic Kingdom

The day she came into my life  
I emerged from the dark  
I saw an angel from the skies  
A beauty never seen before  
She got my heart at first sight  
Her breath of fire resurrected my soul  
I was so blind, agonizing  
I've been dying, bleeding  
Till she healed my wounds

She is my world  
She saved my life  
My dragon princess opens the gates  
of a brave new world  
Flying high above the clouds  
I leave all shadows from the past  
For the very first time I know what love is

Bound in an infinity sign  
This magic can't escape  
We'll be one forevermore  
No more crying  
No more torments  
My soul is complete  
I'm now a new man free from sins

She is my world  
She saved my life  
My dragon princess opens the gates  
of a brave new world  
Flying high above the clouds  
I leave all shadows from the past  
For the very first time I know what love is
