

## Appreciate You

Magic!

Do we all need to be loved  
A human need to be loved  
There's no gift I can buy  
I can make you feel that kinda high  
That lifts your heart

Said we all want to feel special  
Truly, deeply special  
There's no words I can say  
That will deeply, truly compensate  
So here's where I start

Just want you to know that I appreciate you  
I don't always show it but I swear that it's true  
Said I love the beautiful things I know that you do  
Just want you to know that I appreciate you

I recognize your strength  
You confident style and grace  
Oh, darling without you near  
I'd be a mess right now, it's clear  
So clear, so clear

So I want you to know that I appreciate you  
I don't always show it but I swear that it's true  
Said I love the beautiful things I know that you do  
Just want you to know that I appreciate you

Tomorrow nobody knows  
What may not come or go  
Just in case we divide on this windy road  
I need you to know

Said I need you to know that I appreciate you  
I don't always show it but I swear that it's true  
I love, love, love the beautiful things I know that you do  
Just want you to know that I appreciate you

Said I do, I do, I do  
And I do, I do, I do  
No matter where I go or what I do  
Don't matter, I'll appreciate you
