

Gratitude

Magixx

Gratitude is a must
Yeah we came from the dust
Where nobody ever used to show we love
Now we pull up in a porsh

Thankful for my life today
Many niggas dan throway
Many many things wey my eye Dey face
But I'm still here strong

I remember when I was so low
Like the currency
All these people never showed me love
Now them rushing me
All my nigga's pull up in a Porshe
Man I'm honestly high
Man I'm honestly high high

Give thanks to the most high
Now we Dey pull up, pull up
Been waiting my own life
You see tha vision, vision
And you know sey na one life
Girl me Dey back the thing up
Give thanks to the most high, no lie

So when me wake up in the morning
Me I go on my knees and pray
And na because me see the light me na give jah the thanks and praise
One time for my people inna area
Two times for my bitches in the back
Three times for my people on the street 'cause them know how it is, t
hem know how it is

I remember when I was so low
Like the currency
All these people never showed me love
Now them rushing me
All my nigga's pull up in a Porshe
Man I'm honestly high
Man I'm honestly high high

Give thanks to the most high
Now we Dey pull up, pull up
Been waiting my own life
You see tha vision, vision
And you know sey na one life
Girl me Dey back the thing up
Give thanks to the most high, no lie
