

## Northstar Blues

Magnolia Electric Co.

Where were the rest of my songs tonight  
I only remember the North Star blues  
That simple old tune on the stage each night  
Marking the time that I lost you  
No one should forgive me  
I knew what I stood to lose  
Am I better off now  
just forgetting how  
I came to earn the North Star blues  
How can I be the only one  
Whose life can't live up to the lie  
How can I be the only one  
Whose heart refuses to try  
No one should forgive me  
I knew what I stood to lose  
Am I better off now  
just forgetting how  
I came to have the North Star blues  
How can I be the only one  
Whose life can't live up to the lie  
How can I be the only one  
Whose heart refused to try
