

There's monsters in your head, I see them coming out  
They wanna pull me in and six feet underground  
They wanna watch me break, there's nothing I can't take  
You thought I would come easily but now you see

There's no escape  
I'll dig your grave

You can't control me  
So crucify me  
'Cause I'm not bowing down  
Not falling for your false intentions  
I'll never listen  
Your cult can't save you now  
We'll burn it to the ground

You're a parasite that feeds upon the innocent  
Exploiting every life that makes you filthy rich  
I wanna watch you break, there's nothing I can't take  
Oh, there's no escape, just let go of me

You can't control me  
So crucify me  
'Cause I'm not bowing down  
Not falling for your false intentions  
I'll never listen  
Your cult can't save you now  
We'll burn it to the ground

You prey on the ones who are looking for something  
Bathe in the blood while you offer them nothing  
Selling me lies while I'm nailed to your cross  
Drink from the cup, turn around

Watch the bodies drop  
Watch the bodies drop

Can't control me  
So crucify me  
'Cause I'm not bowing down  
Not falling for your false intentions  
I'll never listen  
Your cult can't save you now

You can't control me  
Crucify me  
Not falling for your false intentions  
I'll never listen  
Your cult can't save you now  
Your cult can't save you now  
We'll burn it to the ground
