

Homicide

Magnolia Park

Scream out loud if you feel alive
Wasted love, I've been up all night
Sober up, put your head on ice
It's a homicide

Every night, you're walking
Closer to the edge of the road
2 AM, I'm wondering
If you should be all on your own

You can carry your throne, carry your throne
But, you never have to be all alone
You can carry your throne, carry your throne
But, you never have to be all alone

Scream out loud if you feel alive
Wasted love, I've been up all night
Sober up, put your head on ice
It's a homicide

In the dark, in the dark, we tether
Take me to your hideaway
We took the train, took the train together
Just so we could get away

You can carry your throne, carry your throne
But, you never have to be all alone
You can carry your throne, carry your throne
But, you never have to be all alone

Scream out loud if you feel alive
Wasted love, I've been up all night
Sober up, put your head on ice
It's a homicide

You can carry your throne, carry your throne
But, you never have to be all alone
You can carry your throne, carry your throne
But, you never have to be all alone
You can carry your throne, carry your throne
But, you never have to be all alone
You can carry your throne, carry your throne
But, you never have to be all alone

Scream out loud if you feel alive
Wasted love, I've been up all night
Sober up, put your head on ice
It's a homicide

Scream out loud if you feel alive
If you feel alive
Sober up, put your head on ice
It's a homicide
