

# Misfits

Magnolia Park

You make me fucking sick  
And twisted  
You're always taking shots  
You missed me  
Branded me with blood and lipstick  
Can't get you off my tongue  
Thought we were fucking done  
Were misfits

You write it on the wall  
The silence takes control  
Your face just says it all  
A death grip on my soul  
I'm buried in the ground  
A secret safe and sound  
I'll never fit your role

Yea I'm about to lose it  
And I just can't refuse it  
And girl you got a screw loose  
Screws loose  
Do you know that you're abusive

You make me fucking sick  
And twisted  
You're always taking shots  
You missed me  
Branded me with blood and lipstick  
Can't get you off my tongue  
Thought we'd be fucking done  
Were misfits

Keep hearing your name  
And I wish I could forget it  
You burned a hole in my head  
And now I'm falling apart  
You say you're sick of the cycle  
But you're the one making it spin  
Here we go again and again

Yea I'm about to lose it  
And I just can't refuse it  
And girl you got a screw loose  
Screws loose  
Do you know that you're abusive

You make me fucking sick  
And twisted  
You're always taking shots  
You missed me  
Branded me with blood and lipstick  
Can't get you off my tongue  
Thought we'd be fucking done  
You make me fucking sick  
And twisted  
You're always taking shots  
You missed me

Branded me with blood and lipstick  
Can't get you off my tongue  
Thought we'd be fucking done

You make me fucking sick  
And twisted  
You're always taking shots  
You missed me  
Branded me with blood and lipstick  
Can't get you off my tongue  
Thought we'd be fucking done

We're misfits  
We're fucking misfits  
We're misfits
