

# OMEN

Magnolia Park

Blood's on my skin, I feel it sinking in  
Rush of adrenaline  
I need a, I need a hit  
Gimme medicine  
Just let me numb myself  
Can't take another second on this planet

I need to get out of here  
Don't let me disappear  
I need to get out of here  
Let me out

Now  
I watch the storm begin  
It's an omen  
Now  
It's crawling in my skin  
It's an omen  
It's an omen

Something paranormal  
Running through my mind  
Open up the portal  
And take a look inside

Hey  
I think I blew a fuse  
Hey  
Nothing left to lose  
Hey  
If you feel it too  
Everybody get down

I'll make you burn  
I've prayed a thousand times  
To get you out my mind  
I need an exorcist  
To rid me of your sin

Now  
I watch the storm begin  
It's an omen  
Now  
It's crawling in my skin  
It's an omen  
It's an omen  
Now  
The poison's sinking in  
Is this my omen now  
It's an omen  
It's an omen

You think you're noble  
You're just ancient creatures  
Now we will plunge the Nocturne Nexus into darkness  
Rise, rise, rise  
It's an omen

Now  
I watch the storm begin  
It's an omen  
Now  
It's crawling in my skin  
It's an omen  
It's an omen  
Now  
The poison's sinking in  
Is this my omen now?  
It's an omen  
It's an omen
