

Tokyo

Magnolia Park

Met her in the darkness
We had a date with the moon speaking tight lips
The way we thinking got the devil working night shifts
Your eyes a perfect blue you got me feeling righteous
I'm feeling like this

Now we'll do whatever we want
Whatever we want
We're just falling in love
Falling love
I need you like a drug
You like a drug
Promise you I can't quit
Baby I could die like this

Stay up, all night
Rush in Tokyo running through the lights
Stay up, all night
Got me fucked up till the sunlight

I feel like I'm running out of time
On this midnight drive under moonlit skies
Were staying up all
But it still won't be enough time

Now we'll do whatever we want
Whatever we want
We're just falling in love
Falling love
I need you like a drug
You like a drug
Promise you I can't quit
Baby I could die like this

Stay up, all night
Rush in Tokyo running through the lights
Stay up, all night
Got me fucked up till the sunlight

And we don't get no sleep
When you're touching me
We don't have no fear at all
And we don't get no sleep
Put your lips on me
I'm falling for you

Stay up all night
Rush in Tokyo running through the lights
Stay up all night
Got me fucked up till the sunlight
Got me fucked up till the sunlight
Got me fucked up till the sunlight
