

# Tonight

Magnolia Park

The secrets that you told me  
I'll take to my grave  
Cutting off my fingers  
Just so you would stay  
We are the night but our stars start to fade  
Holding your hand with a ball and a chain

(Ooh, Ooh)  
No point in saying goodbye  
(Ooh, Ooh)  
It feels like suicide

I don't fucking care  
If I die tonight  
Life is so unfair  
Can you just miss your flight  
Even if we tear  
And the world ignites  
I don't fucking care  
If we die tonight

Staring at your taillights  
Watching you drive away  
Can't shake off the cold nights  
My vision starts to fade  
I'm losing my mind  
Tell me why I shouldn't drive off this overpass  
For headfirst into a crash and end it all

(Ooh, Ooh)  
No point in saying goodbye  
(Ooh, Ooh)  
It feels like suicide

I don't fucking care  
If I die tonight  
Life is so unfair  
Can you just miss your flight  
Even if we tear  
And the world ignites  
I don't fucking care  
If we die tonight

We are the night but our stars start to fade  
We are the night but our stars start to fade  
We are the night but our stars start to fade  
We are the night but our stars are fading away

I don't fucking care  
If I die tonight  
Life is so unfair  
Can you just miss your flight  
Even if we tear  
And the world ignites  
I don't fucking care  
If we die tonight

I don't fucking care  
If I die tonight  
Life is so unfair  
Can you just miss your flight  
Even if we tear  
And the world ignites  
I don't fucking care  
If we die tonight
