

Awake

Mahalia

Meet me in the bedroom
Lay there awake
I've been thinking 'bout this thing here all week
One night could feel like four days
Meet me in the bedroom
Lay there awake

Time slows down when you pull up to the venue
Michelin star crib and my body's on the menu
VIP treatment giving you the chef's special
Cos I still get butterflies daily like the first day that I met
you
I got a dilemma
Whenever
We're not together
If you're tryna be the Nelly to my Kelly
Pull up on me
No Pressure

Meet me in the bedroom
Lay there awake
I've been thinking 'bout this thing here all week
One night could feel like four days
Meet me in the bedroom
Lay there awake

You've been feeling distant
We're omitting our natural fixes
Your body's the mission
Tunnel vision on nights like this
(Nights)
I know you work hard
Hardly working on yourself
(Won't you)
Let go of your stress
Lay back
Lay back, decompress

Meet me in the bedroom
Lay there awake
I've been thinking 'bout this thing here all week
One night could feel like four days
Meet me in the bedroom
Lay there awake
