Mahalia

Woke up this morning and I looked to my left
Thought you were here, baby
Realised and got a sudden pain in my chest
Thought you were near me, baby
You're posted up in London in the house that we rent
Yeah, how's it doing, baby?
I'm workin' on my music, but today, I'm upset
Yeah, I really miss you, baby

I don't mind if you've had enough of this lonely life
Baby, sometimes, I feel it, too, too, huh
I don't mind if you're tired of the days when we don't get to facetime
'Cause most of my life is split between you and a red-eye

I know you never ask for much when we're together at home
And, baby, I like that, yeah
Gotta hold it down for a little bit
Longer, we'll be together for life, uh
Yeah, I'll be right back, hey

All along we, in the zone, I
Need you home, I want you more as I
Want you closer, need your dose, I do (Yeah, ayy)
Always on my mind like constantly
I know your love is where I wanna be
You on the road, ain't got no time for me
Mahalia, I hope you savin' up that time for me

I don't mind if you've had enough of this lonely life (Yeah, well)
Baby, sometimes, I feel it, too (Yeah), too, huh (Oh, oh, yeah)
I don't mind if you're tired of the days when we don't get to facetime (Oh w
oah, oh, oh)
'Cause most of my life is split between you and a red-eye

I know you never ask for much when we're together at home
And, baby, I like that, yeah (Yeah)
Gotta hold it down for a little bit
Longer, we'll be together for life, uh (For life)
Yeah, I'll be right back, yeah, yeah

I said I don't mind, but, truth is, I do
All the things you're feeling, babe, I feel, too (Feel, too)
I'm stood at the gate waitin' in LAX
'Bout to take my music out to New Zealand (Yeah)
Walkin' down the aisle on this jet plane (Jet plane)
Closed eyes picturin' our wedding day
Finally take a seat up by the front window
Swiped the tab and turned my phone to airplane mode

I know you never ask for much when we're together at home
And, baby, I like that (Baby, I like that)
Yeah (Yeah)
Gotta hold it down for a little bit
Longer, we'll be together for life, uh (For life, babe)
Yeah, I'll be right back (I'll be, I'll be, right back)

Ooh yeah (Hmm)

Right back
Yeah, I'll be right back, you know
Hmm
Mahalia (Yeah)
