

Consistency

Mahalia

Standing on my own under these lights
When I find my feet I lose my mind, every time
Instead of thinking 'bout, thinking 'bout
How I'm looking now, I feel it out
Instead of standing 'round, standing down
I wanna find out how to lose it all with you

Everywhere we go (Everywhere we go)
I don't know how you know
How to make me move, consistently
Look at the way we flow (Look at the way we flow)
Flow like water
You and I are smooth, consistency

You say that you don't know where to start, huh
Dah, dah, dah, dah, dah
Take one hand and place it on my heart
It's moving fast
Instead of thinking 'bout, thinking 'bout
How you look 'em out, just feel it out
Instead of sitting 'round, standin' down
Come and find out how I lose it all for you

Everywhere we go (Everywhere we go)
I don't know how you know
How to make me move, consistently, huh
Look at the way we flow (Look at the way we flow)
Flow like water
You and I are smooth, consistency

Our bodies blend together
It's me with a combination of you
Through thick and thin whatever
We move much better when two becomes one

One, one, one
Consistency
Consistency
How to make me move, consistently
Consistency
Ooh, ah, consistency
