

# Forever

Mahalia

If I say it too much does "I love you" begin to lose meaning?  
Not the type to hold back what I'm feeling  
These boundaries don't help no one, no  
(No one, no)  
And it ain't my fault if they all get involved for no reason  
Everybody gon' say what they see, babe  
But that don't mean they know what's going on

Take it from me  
I say I'm wrong when it's all my fault  
(All my fault)  
Effortlessly  
(Effortlessly)  
That's how I love when you take my heart  
(Take my heart)

It seems like forever  
And a day, it's been a minute with you  
Make it so we never  
Take our love for granted  
Take over my senses  
(Take over my senses)  
You feel like, sound like  
Look like, smell like forever  
So don't take my love for granted

I'd rather go too far than  
Have regrets in the morning  
Usually I don't move this fast  
There's so many ways to make this last  
I need a demonstration  
Don't need conversation  
Truthfully, we moved way passed that  
We know it fails, just

Take it from me  
(Take it from me, babe)  
I say I'm wrong when it's all my fault  
(All my fault)  
Effortlessly  
(Effortlessly)  
That's how I love when you take my heart

It seems like forever  
And a day, it's been a minute with you  
Make it so we never  
Take our love for granted  
Take over my senses  
(Take over my senses)  
You feel like, sound like  
Look like, smell like forever  
So don't take my love for granted

My love is sacred, so don't you waste it  
Heard it's contagious  
If you don't want it, I'll give it away  
Yeah

Don't get complacent  
Thinking the situation's never changing  
A little effort is all I crave  
Oh, no  
My love is sacred, so don't you waste it  
Heard it's contagious  
If you don't want it, I'll give it away  
Yeah  
Don't get complacent  
Thinking the situation's never changing  
A little effort is all I crave
