

# Karma

Mahalia

Mm, mm  
I got this burning feeling  
Up inside my bones  
You know I've been calling  
"Baby, are you home?"  
I know your girl set the bar and she's pretty as fuck, but  
I am the one  
She got the time, but I got the touch that  
Makes you dumb

Won't you realise now  
You need the real right now  
Wanna fake it 'til you make it, I'ma break that shit down  
I wanna show you just how I make you come around

Like karma, boy with me, no drama  
You can't escape this now  
I'll make you come around  
Oh, karma, play it how you wanna  
'Cause it's got a way of working out  
I'll break it down  
You should know that you can't fight karma  
Oh, no, hey, no, no, no, no, wow

Aren't you missing something?  
I could bring you joy  
You could have me for nothing, huh  
So, what you waiting for?  
I know you think what you want is a girl that don't tell you  
When you are wrong  
But I'll be the one to turn you back around to  
Where you're running from

Do you realize now  
That I'm the real right now?  
Know you wanna keep it quiet, I'ma play that shit loud  
I'm gonna show you just how I make you come around

Like karma, boy with me, no drama, huh  
You can't escape this now  
I'll make you come around  
Oh, karma, play it how you wanna  
'Cause it's got a way of working out  
I'll break it down  
You should know that you can't fight karma  
Hm, yeah

We been, we been here too long  
This game just goes on and on  
You know I'm the only one  
You know I'm the only one (Ha-ha)  
I'm not gonna call no more (No, I'm not, no, I'm not)  
No waiting outside your door (La, la, la)  
I'll get what I came here for  
I know that you'll come around like karma  
I know, I know, I know, I know  
I know, I know, I know, yeah, ha

You should know that you can't fight karma  
No, you can't, no, you can't, love, yeah, hey  
Oh, dah-dah-dah, dah-dah-deh  
Know, you should know, you should know, ah-ah

The self-worth and the validation for each other  
It was like I, I didn't feel myself without him  
That as a concept is crazy  
Just how I'm sayin' it... yeah, yeah  
Tryin', but I'm just sayin'  
Ah, ah, ah, ah, ah  
Ah, ah, ah, ah, ah  
Ah, ah, ah, ah, ah  
Ah, ah, ah, ah, ah
