And I know, know, know, I...

No reply (Know, know) No  
You and I know, know  
Know, know, know, know

Came around, I was down love  
Saw my crown, knew I was fine without ya  
You lit me up then a fire started  
Now I see why you don't try, no soft side  
So here we go, here we go, you...  
Did what I thought you'd do all along  
And gave me dizzy tones  
There you go, there you go  
It's out of my control  
Now you're by the phone, I don't wanna know

Don't you ever call me again love  
Don't you ever call me your friend, no  
Don't you try, don't you try  
Funny how they think that they know us  
You ain't laughing now there is no us  
You and I, you and I  
Take me back around to the place where you first found me  
I won't let you in, no, I won't let you ground me  
Don't you ever call me your friend, love  
Don't you ever call me again, love

I ain't never gonna save ya (never) again  
Sail on, ooh, I don't want you yeah baby  
You must be dumb, I can't feel the wave that you're on  
Can't you hear the tone? I don't wanna know
