

Pressure Points

Mahalia

Take your hands and put them on my pressure points
I'm not trying to put no pressure on you boy
But this is precious love no it is not a toy
Don't you question if it's love or pleasure
Just put it on my pressure points

Soon, so very soon you'll realize
That you don't get another try
I think it's best you treat me right
Instead of running off that mouth so full of lies
And yes it's true I love you dearly
But this on and off it makes me weary
Feels like you're wasting my time
Time

Put them on my pressure points
I'm not trying to put no pressure on you boy
But this is precious love no it is not a toy
Don't you question if it's love or pleasure
Just put it on my pressure points

I know I'm hot around you
But I get so cold when you leave babe
You could call me summer blue
'Cause I make you sweat when it's freezing
What am I to do?
Sit and wonder if you'll reply
That's just like you
And how could I ever decide
Between you and being alive
It's tough for me to right your wrongs, that ain't right
You don't need more time to keep me guessing no
Take your hands, don't deny me

Put them on my pressure points
I'm not trying to put no pressure on you boy
But this is precious love no it is not a toy
Don't you question if it's love or pleasure
Just put it on my pressure points

This boy a pressure me mind
Make you no just come pressure me line
Action louder than rhyme
So no bagga long chatting tonight
You say you want me, pull up on me
Tell you already say yah me darling
So now whenever you hear me calling
Baby won't you come and find my

Pressure points
I'm not trying to put no pressure on you boy
But this is precious love no it is not a toy
Don't you question if it's love or pleasure
Just put it on my pressure points

Put them on my pressure points
I'm not trying to put no pressure on you boy

But this is precious love no it is not a toy
Don't you question if it's love or pleasure
Just put it on my pressure points

I don't wanna pressure you bae
