Mahalia

Tracey, woo

Damn, I'm really hurtin'  
Boy, you got me hurtin'  
I feel it in my chest, yeah, I feel it in my chest and it's burnin'  
Got me thinkin', "Is it really worth it?," no  
What did I do to make you do me like that?  
So confused, felt like a fool, no  
I never knew it would be you to leave me in the blue  
But I guess it's too, too bad  
What a shame, I never saw you like that  
Didn't see it comin', but it happened real fast  
Too bad, too bad

That you left me, left me, left me on the roadside  
When you kept me waitin' on you all night  
I never knew you'd be a heartbreaker (Heartbreaker)  
I'm done with your fake love (Your fake love)  
You left me, left without a goodbye  
But I really thought you was a good guy  
I should've known you was a heartbreaker (Heartbreaker)  
I'm done with your fake love (Fake)  
Love, love, love, love

Look, look, look (Tracey)  
I was down bad about a week ago (Trust that)  
I went the messy route, I had to take a deeper road (Facts)  
You might not feel it straight away, but it's a creeper though (Yeah)  
She got me fiendin', that's a body I can't leave alone (On God)  
You saw a snap of me abroad and now you're mad at me (Uh)  
'Cause I'm with women that can hang out in the gallery (Mwah)  
And I'm impressive from the bedroom to my salary  
Let me hit, I'll make your eyes water like an allergy (On God)  
I love her temper, temperature of an ember (Ooh)  
You hustle like you mean it, December until December (Facts)  
I know your love's exclusive, I'm lookin' to be a member (Yeah)  
Playin' with your feelings was never on my agenda (Yeah)  
Baby, if I bite you, would you bite me back? (Yeah)  
If I invite you to my place, would you invite me back? (Would you?)  
Can we pick up in the Rolls? I'm tryna light a pack  
'Cause you're the reason I go studio to write this track

But you left me, left me, left me on the roadside  
When you kept me waitin' on you all night  
I never knew you'd be a heartbreaker (Heartbreaker)  
I'm done with your fake love (Your fake love)  
You left me, left without a goodbye  
But I really thought you was a good guy  
I should've known you was a heartbreaker (Heartbreaker)  
I'm done with your fake love (Fake)  
Love, love, love

Baby, please, don't bother me (Nah)  
You had me weak, but now I see  
'Cause I'm done with all your lies (All your lies)  
You can watch me say goodbye  
And when you're layin' alone in your bed

I'm the one that you'll never forget  
So you can stay there with all your regrets tonight

'Cause you left me, left me, left me on the roadside (On the roadside)  
When you kept me waitin' on you all night (You kept me waitin', baby)  
I never knew you'd be a heartbreaker (Heartbreaker)  
I'm done with your fake love (Your fake love)  
You left me, left without a goodbye  
But I really thought you was a good guy  
I should've known you was a heartbreaker (Heartbreaker)  
I'm done with your fake love (I'm done with your fake)  
Love, love, love (Uh)

Fake love (I didn't know, I didn't know, I didn't know)  
Love, love, love  
(Love, love, love, love, love, love)
