

## Fly Above

Mahmut Orhan

Feel alive  
We fly above the mountains day and night  
Dive under the water, purify  
Every moment is an adventure  
With every breath we take we feel alive

I see the people dancing with the breeze  
The children now, they smile among the trees  
Together, one with nature  
Every street is a road trip  
With every sight we see we feel alive

Just one life  
But that'll find a way to make it right  
Shine upon the ones all petrified  
The past is for the future  
With every wound we take we feel alive

I see the people dancing with the breeze  
The children now, they smile among the trees  
Together, one with nature  
Every street is a road trip  
With every sight we see we feel alive

Alive, feel alive, alive, alive  
With every breath we take we feel alive
