

# Redemption

Mahmut Orhan

I can't let go  
Again I fell into rabbit holes  
Lose myself  
To forget that I'm alone

They trick your mind  
They want attention  
Control your mind  
Not to mention  
All the lies  
And your fake friends, yeah  
You got fake friends now

They trick your mind  
They want attention  
Control your mind  
Not to mention  
All the lies  
And your fake friends, yeah  
You got fake friends now

Redemption  
Get redemption  
Redemption  
Get redemption  
Redemption  
Get redemption  
Redemption  
Get redemption

I wish more  
My heart cries for change  
Thinking it was all my fault  
All it takes is one thought

Redemption  
Get redemption  
Redemption  
Get redemption  
Redemption  
Get redemption  
Redemption  
Get redemption

They trick your mind  
They want attention  
Control your mind  
Not to mention  
All the lies  
And your fake friends, yeah  
You got fake friends now
