

# Elvis Song

Maisie Peters

(You were always on my mind)

Cold bench on a platform  
Last train on the Northern Line  
I'm trying to keep you out my mind

Too drunk for a drawbridge  
Your name floods when my eyes are shut  
We found love  
You gave it all and I gave it up

I don't do it often  
But when no one's watching  
No one's watching  
I'm thinking 'bout

Late nights in the old arcade  
Drinking cheap wine as Elvis plays  
Singing, "You were always on my mind"  
I was yours and you were mine  
Breakfast on your sofa bed  
Thinking, "Oh God, I'm in over my head!"  
You were always on my mind  
You're always on my mind

I got no right to miss you  
All I did was kiss and fly  
Each time I stayed another night

I was scared to throw my heart off the edge  
Easier to tell myself we'd mess it up instead  
So I left  
But it plays 'round in my head

I don't do this often  
But when no one's watching  
No one's watching  
I'm thinking 'bout

Late nights in the old arcade  
Drinking cheap wine as Elvis plays  
Singing, "You were always on my mind"  
I was yours and you were mine  
Breakfast on your sofa bed  
Thinking, "Oh God, I'm in over my head!"  
You were always on my mind  
You're always on my mind

(Mind mind mind) You are always always always on my mind  
(Mind mind mind) You are always always always on my mind

In my mind, I hear it and I know nothing's changed  
In my mind, we share earphones on a midnight train  
And I've tried, you moved on and I moved a little too  
But I still wish things were different, don't you?  
I never wanna stop thinking 'bout

Late nights in the old arcade  
Drinking cheap wine as Elvis plays  
Singing, "You were always on my mind"  
I was yours and you were mine  
Breakfast on your sofa bed  
Thinking, 'Oh God, I'm in over my head!"  
You were always on my mind  
You're always on my mind

(Mind mind mind)  
You are always always always on my mind  
(Mind mind mind)  
You are always always always on my mind  
(Mind mind mind)  
You are always always always on my mind  
(Mind mind mind)  
You are always on my mind
