I feel like you're losing your mind  
You're  
I feel like you're losing your mind  
You're losing your mind  
You're losing your mind  
You're lo-  
I feel like you're losing your mind  
You're losing your mind

I feel like you're losing your mind  
You're losing your mind  
You're losing your mind  
You're los-  
I feel like you're losing your mind  
You're losing your mind

I feel like you're losing your mind  
You're losing your mind  
You're losing your mind  
You're los-  
I feel like you're losing your mind  
You're losing your mind

I feel like  
You kept me as your favorite secret  
And I thought we just took it slow  
They said your girlfriend's from the beaches  
It's funny how everybody but me knows

You feel nothing, that's fine

Please leave this behind

You're losing your mind  
You're losing your mind  
You're losing your mind  
You're lo-  
I feel like you're losing your mind  
You're losing your mind

I feel like you're losing your mind  
You're losing your mind  
You're losing your mind  
You're lo-  
I feel like you're losing your mind  
You're losing your mind

I feel like, I feel like, I feel like, I feel like  
I feel like, I feel like, I

Losing your mind  
I feel like  
I feel like  
You kept me as your favorite secret  
And I thought we just took it slow  
I feel like  
They said your girlfriend's from the beaches

It's funny how everybody but me knows  
I feel like  
You're losing your mind  
You're losing your mind
