

# Everytime

Maître Gims

See the signs on your face  
Memories shut away  
Carrying the past, stuck in your place  
Blaming your luck on the rain

Dreams are hard to follow when you're dreaming behind a window  
Holdin' it back, playin' it safe  
Wondering "did I do this right?", and saving it for tomorrow  
There is no life without mistakes

Every time, you shy away  
Talk to your feels and you had a way  
Hold it on you so you run again  
Hold it on you so you run again  
Hold it on you so you run again

Remember, we were brave  
Somehow time, took that away  
Caught in a web, I know the place  
It's all in your head, in your way

Dreams are hard to follow when you're dreaming behind a window  
Holdin' it back, playin' it safe  
Wondering "did I do this right?" and saving it for tomorrow  
There is no life without mistakes

Every time, you shy away  
Talk to your feels in a harder way  
Hold it on you so you run again  
Hold it on you so you run again  
Hold it on you so you run again
