

Make It, Not Break It

Majesty

We're on a mission - it's a metal crusade
We're gonna triumph - that's how winners are made
We will fight until the battle's won

Do you remember back in '99
Yeah, you and me we had a hell of a time
Felt the power and knew where we belonged

Can't you hear the kids call
Can't you see 'em stand tall

We're gonna make it - not break it
We're gonna shake it - not fake it
We fired a shockwave all around the world
We shouted out and our voices were heard
Come and join us - we are gonna rule

The crowd is shouting: "Hail to Majesty!"
I know they're shouting out for liberty
All are family and we shall rule

Can't you take the hard truth
Gonna' raise the damn roof

We're gonna make it - not break it
We're gonna shake it - not fake it
